

CATALOGUE

OF THE

OFFICERS AND STUDENTS

OF

THE COLUMBIAN UNIVERSITY,

FOR THE ACADEMIC YEAR 1882-'83.

WASHINGTON, D. C.:

RUFUS H. DARBY, PRINTER, 432 NINTH STREET.
1883.

NOTE.

By an act of Congress approved March 3, 1873, the act to incorporate The Columbian College, in the District of Columbia, approved February 9, 1821, was so far modified as to provide, *inter alia*, “ that said Corporation shall be hereafter known and called by the name of The Columbian University, and in that name shall take, hold, and manage all the estate and property now belonging to said College, or that may hereafter be conveyed, devised, or bequeathed to said Corporation by its original name.”

LAW SCHOOL.

The Law School of the Columbian University is held in the Law Building, situated on Judiciary Square, Fifth street, between D and E streets.

ADMISSION.

The course of study is adapted to graduates of colleges, and to any who have attained a sufficient discipline of their mental powers. All however, who desire, are admitted to the recitations and lectures of the School, it being understood that their graduation will depend on their success in mastering the daily exercises and in passing the final examinations. No one is admitted as a candidate for graduation in the Senior Class who has not spent one year either at this or some other Law School, or performed a corresponding amount of study under some approved attorney.

SESSIONS.

The entire course of study in the undergraduate department embraces two years. The annual session begins on the second Wednesday in October and ends on the Tuesday next before the second Wednesday in June. The exercises of the School are all held after the usual office hours, which close at 4 o'clock, thus giving to students the entire day for study, for reading in the public libraries, and for attending the several courts of the Capital, and at the same time enabling young men engaged in office duties to avail themselves of the facilities of the School.

COURSE OF INSTRUCTION.

The School is divided into two classes, a Junior and a Senior.

Junior Class.

PROF. COX.

The instructor of the Junior Class, aiming to secure for his pupils as thorough and accurate a knowledge of the law of *real and personal property*, of *contracts* and of *crimes and misdemeanors*, as it is possible for them to attain within the brief period of a scholastic year,

places in their hands successively, *Blackstone's Commentaries*, *Kent's Commentaries*, *Parsons on Contracts*, and *Byles on Bills*, as text-books to be carefully read and studied by them. He meets the class on Monday, Wednesday, and Friday of each week. For each meeting a lesson of moderate length is assigned, and the lesson for the evening forms the subject of his lecture. In his lecture he reviews, illustrates, and simplifies, as far as he can, the teachings of the lesson; shows how far, and in what particulars, the law contained in it has been repealed or modified, either by English or American statutes, or by the American common law; and tries to remove the doubts and uncertainties that are apt to trouble and perplex those entering for the first time upon the study of law. And to insure a careful reading of the lesson, and proper attention to his lecture, he, at the close of the latter, questions the class upon the important points of each; and, by his catechetical analysis, reproduces, and impresses upon the memories of his pupils the teachings of both lesson and lecture.

The Senior Class.

PROF. MAURY.

The students of the Senior Class meet the Professor charged with their especial instruction on Tuesday, Thursday, and Saturday of each week, and while pursuing the special studies of the Senior course are required to attend the recitations and lectures of the Junior year, that they may be thoroughly grounded in the law of real and personal property and of contracts.

The special studies of the Senior year begin with Common Law Pleading, in which Stephen on Pleading, as edited by Tyler, is used as the text book of the class. Next follow instructions on the Law of Evidence, with the first volume of Greenleaf on Evidence as a manual. To these succeed instructions in Equity Jurisprudence and Equity Pleading and Practice—Smith's Manual of Equity, and Mitford and Tyler's Pleadings and Practice in Equity being the text-books used under these heads. The closing part of the course is occupied with the Law of Partnership considered in itself and in its relations to remedies afforded in Courts of Equity. And because of their especial character, lectures are given on the remedies, Ejectments, Quo Warranto, Scire Facias, and Mandamus,

as also lectures, by way of review, on Pleading and on Evidence, delivered at the close of the whole course

The method of instruction pursued in this class is as follows : A lesson comprising a certain number of pages in the text-book is assigned to the class, and on the subject-matter of this lesson the Professor at his next meeting lectures according to the requirements of the case. At the next meeting he examines the class on the text and lecture of the preceding meeting—using for this purpose carefully written questions, and calling up indiscriminately the members of the class. In this way the students are trained to reproduce with readiness and accuracy the principles they have learned both from the text-books and the Lectures of the Professor.

SPECIAL FACILITIES.

The City of Washington furnishes special facilities for the law student as well as for the general scholar. The unequalled collection of the Congressional Library is open during seven hours of each day to all who wish to examine any authority, or to take notes from any book of reference, ancient or modern. Besides the local courts, both of criminal and civil jurisdiction, the sessions of the Supreme Court are valuable for practical instruction to students. In addition to these, the discussions on patent law, the deliberations of the Court of Claims, and the debates on constitutional and international law in the Halls of Congress, form a combination of facilities open to persons desirous of general improvement.

EXAMINATION AND GRADUATION.

All candidates for graduation are required to pass a general examination, at the end of the course, on all the studies of the two years, in the presence of the Faculty and of such committee as the Trustees of the University may appoint. This examination is conducted upon printed questions, which are answered by each student in writing.

The degree of Bachelor of Laws is granted to students who, having passed both years of the prescribed course in the School, or who, on presenting credentials of equivalent study in some law college or office, and passing one year in the School, shall sustain satisfactory examination in all the studies of both the Junior and Senior classes.

The time spent in the Law School of the University is counted as part of the period of study required for admission to the bar of the Supreme Court of the District of Columbia.

PRIZES.

Three prizes, one of forty dollars, one of thirty dollars, and one of twenty dollars, are annually given to the respective authors of the best three essays among all those handed in by such members of the Senior class as shall compete for them, and shall pass a successful examination for the degree of Bachelor of Laws. The prizes are awarded by the regular professors of the School.

COMMENCEMENT.

The degrees are publicly conferred, and the prizes publicly delivered, at the Annual Commencement of the Law Department, when, in connection with other appropriate exercises, an address is delivered to the graduating class by an eminent member of the bar whom they may have selected for that purpose.

EXPENSES.

The entire charge for tuition, lectures, and all facilities of the School, is *eighty dollars* for a single year, or *one hundred and fifty dollars* for two scholastic years, payable in advance, half yearly, or in monthly instalments at the option of students. Students desiring to devote three years or more to the preparation for graduation may have this privilege by the payment of *two hundred dollars* for the entire course. If a student shall, for any cause, intermit the studies of either his first or his second year at any point before graduation, the payments he may have made during either or both of these years will not work exemption from the regular monthly dues of any subsequent year on which he may attend the School; but it shall always be open to him to profit by the benefits of the three-years' rule. A charge of *two dollars* is made for diplomas. Students from abroad can secure board at prices as reasonable as in any other city.

Graduates of the school are admitted to all lectures of the undergraduate course in subsequent years without charge.

Post-Graduate Course in Practice.

A Post-Graduate course of instruction in Common Law Practice and in Equity Pleadings and Practice, designed to show the application of the principles of law to the transaction of business life and to the actual proceedings of courts, is conducted by Professors Cox and Maury, as a supplement to the undergraduate course of the Law School.

In the Common Law Branch the students use a work on Practice prepared by Professor Cox, after which they are exercised in the conduct and trial of causes, and thus taught to apply their theoretical learning in pleadings, practice and evidence. In connection with this course, it is intended that they shall also study some such work as Archibald's *Law of Nisi Prius*. During more than half the term the exercises will be those of a *Nisi Prius Moot Court*.

In the Equity Branch the students will be instructed in the general principles of equity pleadings, and in the mode of conducting an equity cause. The text-book employed will be Mitford and Tyler's *Equity Pleadings and Practice*.

Candidates for admission to the Post-Graduate course will be required to furnish evidence that they have been diligent and successful students of law for the term of two years. Diplomas of respectable law schools, certifying that their holders have been graduated after such a term of study, will be received as evidence of qualification for admission to the course. At the end of the course all such students who shall sustain a satisfactory examination in its instruction and exercises will be entitled to a diploma admitting them to the degree of Master of Laws. Students who have pursued a two-years' term of study in a lawyer's office will also be admitted to the course, on presenting a certificate of the fact from a lawyer under whose direction they may have studied; but such students if aspiring to the degree of Master of Laws, will be required, as the condition of receiving it, to sustain a satisfactory examination for the degree of Bachelor of Laws as well as for the degree of Master of Laws.

The tuition fee for this course, covering a period of nine months, is \$25.

LECTURES ON CONSTITUTIONAL LAW.

An extraordinary course of Lectures on Constitutional Law is delivered to the students of the School by the Hon. William Strong, LL.D., sometime Associate Justice of the Supreme Court of the United States. In this course, after a history of the origin and formation of the Constitution of the United States, the principles of Constitutional interpretation are briefly inculcated, in connection with an outline sketch of the leading doctrines to which those principles have led in the conduct of the Government and under the exposition of the Supreme Court of the United States.

The course is open to all the classes of the School.

THE MEDICAL SCHOOL.

The building in which this School holds its sessions was given to the University through the munificence of WILLIAM W. CORCORAN, LL.D., and is situated on H street, between Thirteenth and Fourteenth streets, in Washington.

The school is furnished with a museum containing a valuable collection, and is also provided with other appointments suitable for the purposes of medical, anatomical, and surgical study.

The plan of instruction comprises a complete course of scholastic lectures on the seven essential branches of medical science, viz : Anatomy, Physiology, Materia Medica, Chemistry, Surgery, Obstetrics, and the Theory and Practice of Medicine, by which the student becomes thoroughly versed in the *principles* of his profession; and, conjoined with this, ample opportunities will be afforded for bedside instruction, by which the general principles taught in the lecture-room can be verified, illustrated, and *practically applied*, under the immediate observation of the student. In this latter particular no pains will be spared to render him perfectly familiar with the various modes of examining patients, analyzing symptoms, and arriving at a correct diagnosis and prognosis of any case that may be presented. In like manner he will learn the art of prescribing medicines and of observing their effects, the mode of performing surgical operations, &c. Thus every facility will be provided, so far as education is concerned, necessary to render him at last a competent practitioner of medicine. In addition to full sets of diagrams to illustrate the subjects considered by the several Chairs, the College has provided a Sciopticon or Lantern, which enables the Lecturer to give the class faithful and exact (photographic) views of both normal and pathological structures.

Practical laboratory instruction will be given during the session in Experimental Physiology, Normal and Pathological Histology, and Chemistry.

The laboratory has been supplied with microscopes and with the necessary appliances for the study of these subjects.

The course in Experimental Physiology and Histology is open

to students during the first and second years of their tuition, and the course in Pathological Histology to third-year students only.

A Spring Course of lectures has also been established, beginning in April of each year, and which comprehends Lectures on special subjects, hospital clinics and practical instruction in the branches taught during the winter term. This course is free of charge to matriculants of the College.

CLINICAL INSTRUCTION.

The opportunities for clinical instruction in the city of Washington have of late years increased in proportion to its augmented population and growing business activity. Providence Hospital, Columbia Hospital for Women, the Children's Hospital, the Washington Asylum, and the Freedman's Hospital, together with the various Dispensaries in the city, present abundant facilities for the practical study of disease. Those members of the Faculty holding hospital positions will give notice of their respective clinical programmes at the commencement of the session.

PRACTICAL ANATOMY

The Dissecting-Room, newly constructed in the most approved style, is large and thoroughly ventilated. It is amply supplied with gas-light, water, and everything that can contribute to the convenience and comfort of the student. The room is open during the day, and in the evening until 11 P. M., under the direction of the Demonstrator of Anatomy, who will always be present in the evening to give his personal attention to the classes and properly instruct them while conducting their dissections.

General Sketch of the Several Lecture Courses.

SURGERY.

PROF. J. FORD THOMPSON.

The principles and practice of Surgery will be taught from this Chair, both by didactic lectures and clinical instruction. Orthopedic Surgery and Diseases of the Genito-Urinary system will be included in this course. Regular clinics will be held during the term at Providence Hospital, where every facility will be afforded to the class for witnessing surgical operations. At the College, also, operations will be performed upon the *cadaver*, and the use of all important surgical instruments and appliances will be demonstrated in the same manner. A fine collection of colored models life-size, and illustrating surgical anatomy, will be used in the surgical course.

THEORY AND PRACTICE OF MEDICINE.

PROF. W. W. JOHNSTON, ONE OF THE ATTENDING PHYSICIANS TO THE CHILDREN'S HOSPITAL.

The course of instruction in this department will, it is hoped, impress upon the memory of the student the facts and principles of pathology, and supply him with the knowledge necessary for the recognition and treatment of disease.

The study of diseased tissue will always be made a prelude to that of disturbed function, and the relations of the one to the other will be fully developed. In furtherance of this plan, and in addition to the frequent use of diagrams and morbid specimens, microscopic teaching will be constantly employed to supplement the descriptive details of the lectures.

Dr. Acker, in connection with this Chair, will conduct a special course of instruction in pathological histology.

OBSTETRICS AND THE DISEASES OF WOMEN AND CHILDREN.

PROF. A. F. A. KING.

This course will comprise a series of lectures on the science and practice of midwifery, together with additional lectures on Gynecology. The lectures on Obstetrics will be illustrated by an elaborate collection of life-sized diagrams, natural preparations, and *papier maché*

models, exhibiting the anatomy and physiology of reproduction in all its stages. The mechanism and practical management of natural and preternatural labors will be demonstrated on appropriate manikins, and obstetrical instruments of all kinds will be exhibited, and their use fully explained.

The department of Gynecology, which has of late attained so great a prominence in medical practice, will be thoroughly taught, both as regards theory and practice ; and all instrumental and other appliances required in treating the diseases of females will be presented. A complete assortment of instruments and a collection of colored diagrams are employed in the instructions of this department.

CHEMISTRY AND TOXICOLOGY.

PROF. EDWARD T. FRISTOE.

The instruction of this department embraces —

1st. A short discussion of the various branches of Physics, as specific Gravity, Pneumatics, Heat, Light, Electricity, &c., so far as they can relate to the science of Chemistry.

2d. The principles of chemical philosophy, the laws of chemical combinations, and of chemical affinity in general.

3d. A discussion of the elementary bodies, both metallic and non-metallic, the best methods of preparing the various inorganic bodies, their properties and reactions, and the means of detecting their presence.

4th. The so-called "organic bodies" will be considered as far as time will permit, especially those most useful to the physician, such as organic acids and their salts, the alkaloids, &c.

Throughout the entire course the application of Chemistry to Medicine and Pharmacy will be constantly brought before the student.

Special attention is given to Toxicology. Every poison is studied, so far as the tests for its presence and appropriate antidotes are concerned.

The principles of the science are abundantly illustrated by experiments.

PHYSIOLOGY.

PROF. WILLIAM LEE.

This course of lectures will consist of a full, clear, and practical exposition of Physiology, aided as far as possible by chemical experiments, diagrams, and use of the microscope. The more fully to impress upon the memory of the student the important principles embraced in this valuable part of his curriculum, reviews will be held from time to time in the form of class examinations. The course

will be confined strictly to Physiology, with a view to cover fully the whole ground occupied by this branch.

Dr. C. A. Hoover will aid the Chair of Physiology by experimental demonstrations, including a systematic course of lessons in histology. In this course each student will have the opportunity to become familiar with the use of the microscope and with the minute anatomy of the tissues and organs of the body.

ANATOMY, DESCRIPTIVE AND SURGICAL.

ELLIOTT COUES, M. D., PH. D.

These lectures will be arranged to render the didactic instruction in descriptive and surgical anatomy as full and complete as the limits of the session will allow. The course will include the necessary elements of normal histology and comparative anatomy, and the aim will be to impart those scientific principles of Anatomy which are not usually given in the text-books, and which are ordinarily learned in the dissecting-room, thus rendering the lectures complementary to the other sources of information of which the student may avail himself. Examinations will be conducted as heretofore throughout the session.

The Demonstrator of Anatomy will give his personal attention to the student in the dissecting-room and will assist the lecturer as occasion may suggest.

MATERIA MEDICA AND THERAPEUTICS.

PROF. D. WEBSTER PRENTISS.

In the course of instruction pertaining to this Chair, especial prominence will be given to the physiological action of medicines and their therapeutic uses.

The art of prescribing will have a place in the consideration of individual drugs, particularly with reference to appropriate combinations, much of the success of the practitioner depending upon the practical application of his knowledge in the sick room. The use of the Metric system in its application to medicine will be taught by this Chair.

The value of a knowledge of Pharmacy and of the Natural History and Chemical relations of the Materia Medica is not overlooked, but time does not admit of their being considered in great detail in the lecture-room. They are rather the proper subjects for recess study.

TEXT-BOOKS AND WORKS OF REFERENCE.

ANATOMY.—Quain's Anatomy, (last edition;) Gray's Anatomy; Hodge's or Holden's Dissector.

SURGERY.—Gross' System of Surgery; Erichsen & Druitt.

MATERIA MEDICA.—National Dispensatory; Wood's Therapeutics; Fothergill's Handbook of Treatment.

CHEMISTRY.—Barker's or Attfield's Chemistry; Bloxam's; Fowne's; Bowman's Medical Chemistry; Witthaus' Essentials of Chemistry; and Wheeler's Medical Chemistry.

OBSTETRICS.—Leishman's, Lusk's or Playfair's Obstetrics; King's Manual; Thomas, Barnes, or Byford on Diseases of Women; J. Lewis Smith or W. H. Day, or Meigs & Pepper on Diseases of Children; and Skene on Diseases of the Female Bladder and Urethra.

PHYSIOLOGY.—Dalton's; Flint's Physiology; Foster & Langley's Practical Physiology; Rutherford's Practical Histology.

PRACTICE OF MEDICINE.—Robert's, Bristow's, Flint's or Niemeyer's Practice.

PATHOLOGICAL ANATOMY AND HISTOLOGY.—Green; Wilks and Moxon; Frey's or Stricker's Histology; Rindfleisch's Pathological Histology; Cornil and Ranvier.

REQUIREMENTS FOR GRADUATION.

I. Candidates for the degree of Doctor of Medicine must have attended three courses of lectures, the subjects to be arranged as follows :

FIRST YEAR: Anatomy, Physiology, Chemistry and *Materia Medica*. Practical Anatomy and Histology.

SECOND YEAR: Anatomy, Physiology, Chemistry and *Materia Medica*. Practice of Medicine, Surgery, and Obstetrics. Histology, Practical Anatomy. Clinics.

Examination at end of second year in Anatomy, Physiology, Chemistry and *Materia Medica*.

THIRD YEAR: Practice of Medicine, Surgery, Obstetrics, and Pathological Histology. Clinical Medicine and Surgery. Final examination at the end of this course.

II. Students of other Institutions who have attended one course of lectures in a regular Medical School, will be placed upon the same footing with those who have attended one course in this College; and those who have attended two courses of lectures in some other regular College, or Colleges, will rank with those who have attended two courses in this Institution, and the same privileges as regards examination will be extended to them, that is to say : they will be admitted as third course students after passing a satisfactory examination on the four primary branches of Anatomy, Physiology, Chemistry, and *Materia Medica*.

III. Candidates for graduation must have studied medicine three years, or the term of three years' study must be completed at a date not exceeding three months after the period of the final

examination. They must be of good moral character and at least twenty-one years of age.

Satisfactory evidence that the above conditions have been complied with must be furnished by written certificate from some regular physician in good standing.

IV. The candidate shall have dissected at least two sessions, during each of which he shall be *required* to dissect two "parts" of a subject, and it is *recommended* that he dissect three parts. He must have attended also two courses of clinical instruction.

V. One month before the close of the session he shall enter his name with the Dean of the Faculty as a candidate for graduation, and at the end of the term present himself for examination. The examination, will be both written and oral; they are held in March and September of each year. The diploma is only granted at the annual commencement in March.

VI. Graduates of other accredited Medical Colleges must pass a satisfactory examination on all of the seven essential branches of medicine before receiving a diploma from this School.

FEES, REGULATIONS, &c.

The entire expenses for a Full Course of Lectures by all the Professors is.....	\$100 00
Single Tickets.....	15 00
Practical Anatomy, by the Demonstrator.....	10 00
Matriculating Fee, payable only once.....	5 00
Graduating expenses.....	30 00

No charge will be made to matriculants for the courses of Practical Instruction in the Laboratory on Chemistry, Physiology, and Histology, nor for Clinical Lectures.

Payment of the fees is required in all cases, and tickets must be taken out at the commencement of the session.

By virtue of a liberal endowment from Mr. W. W. CORCORAN, this College is enabled to offer six free Scholarships, which are under the supervision of the Columbian University. All applicants for the privileges of this endowment must produce a certificate from the President of the University that they have been fitted by previous education for the study of medicine, and must submit themselves to the class examinations and graded course of study.

Graduates of other accredited Medical Colleges after three years are required to matriculate only. Prior to the expiration of three years, the fee for a general ticket is \$50.

At the end of the term a General Examination Prize of fifty dollars will be awarded. It will be given to the candidate for graduation who shall pass the best general examination.

Students requiring further information are requested to communicate with the Dean of the Faculty.

A. F. A. KING, *M. D.*,
726, 13th street, *Washington, D. C.*

LECTURES IN THE SPRING SESSION.

FACULTY.

E. T. FRISTOE, A. M., LL.D.,
CHEMICAL ANALYSIS.

ELLIOTT COUES, M. D., PH. D.,
EMBRYOLOGY.

FRANCIS B. LORING, M. D.,
DISEASES OF THE EYE AND EAR.

G. N. ACKER, A. M., M. D.,
PATHOLOGICAL ANATOMY.

FRANK BAKER, M. D.,
VISCELAR ANATOMY.

FRANK HYATT, M. D.,
LARYNGOSCOPY AND DISEASES OF THE THROAT.

The Lectures of this Course are given from 6:30 to 8:30 P. M., on Tuesday, Thursday and Saturday of each week, and do not conflict with the Students attending the clinical instruction given at the various Hospitals and Dispensaries of the City.

A clinic on Disease of Eye is conducted by Dr. LORING in the College Building.

THE COLUMBIAN COLLEGE.

The regular course of instruction given in this Department is comprised in seven schools, as follows:

I. SCHOOL OF ENGLISH : including English Philology, English Literature, Rhetoric, Logic, Elocution, General History, and Anglo-Saxon.

II. SCHOOL OF GREEK : including the Greek Language and Literature, and the History of Greece.

III. SCHOOL OF LATIN : including the Latin Language and Literature, and the History of Rome.

IV. SCHOOL OF MODERN LANGUAGES : including the French and German Languages and Literatures, with the History of France and Germany,

V. SCHOOL OF MATHEMATICS : including Pure Mathematics, Mechanics, and Astronomy.

VI. SCHOOL OF NATURAL SCIENCE : including Physics, Chemistry, and Natural History.

VII. SCHOOL OF PHILOSOPHY : including Mental and Moral Philosophy, Political Philosophy and the Philosophy of History.

SCHOOL OF ENGLISH.

PROFESSOR SHUTE.

There are four classes in this school.

Freshman Class.—Instruction is given in the grammatical forms of the English language, its structure, and its idiomatic character, also in reading, elocution, and composition.

Text-Book : Fowler's English Language.

Sophomore Class.—Instruction is given in the fundamental principles of style and invention, mainly in their rhetorical, and incidentally in their logical aspects. Instruction is given in elocution and composition ; also, in the general outlines of English and American history.

Text-Books : Whately's Rhetoric ; Hill's Science of Rhetoric ; Smith's Student's Hume; Eliot's History of the United States.

Junior Class.—Instruction is given in the principles of pure and applied logic, and application of these principles is required in analyzing and reconstructing ordinary forms of argumentation in select authors. Instruction is also given as to the origin, development, and present powers of the language ; also in the biography, times, and works of the best English writers.

Text-Books : Jevons' Logic ; Thomson' Outlines of the Laws of Thought ; Lounsbury's English Language ; Shaw's English Literature.

Declamation and composition are required.

Senior-Class.— Instruction is given in Anglo-Saxon and Early English.

Text-Books : Shute's Manual of Anglo-Saxon ; Heyne's Beowulf ; March's Anglo-Saxon Grammar.

Essays and original orations are required through the year.

The Anglo-Saxon, being an optional study, is not required for a degree.

SCHOOL OF GREEK.

PROFESSOR HUNTINGTON.

In this School instruction is given in the Greek language and Literature, and in Greek History. The school embraces four classes : Freshman, Sophomore, Junior, and Senior, with the following textbooks :

1. In the Freshman Class : Homer's Iliad ; Herodotus ; Goodwin's and Hadley's Greek Grammar ; Boise's Exercises in Greek Syntax ; and Smith's History of Greece.
2. In the Sophomore Class : Xenophon's Memorabilia ; Isocrates or Thucydides ; Hadley's Greek Grammar ; Exercises in Greek Composition.
3. In the Junior Class : Sophocles, Euripides, and Demosthenes.
4. In the Senior Class : Plato.

Lectures are given to the higher classes on Greek Literature.

Frequent exercises are assigned to the classes in rendering into Greek English translations from Greek authors.

Liddell and Scott's Greek Lexicon ; Kühner's Greek Grammar ; Findlay's, or Long's, or Ginn and Heath's Classical Atlas ; and Smith's Greek and Roman Antiquities, are recommended to students in all classes.

SCHOOL OF LATIN.

PROFESSOR MONTAGUE.

In this School instruction is given in the Latin Language and Literature, and in Roman History. The School has four classes : the Freshman, Sophomore, Junior, and Senior, with the following textbooks :

1. In the Freshman Class : Ovid ; Horace (Odes and Epodes ;) Livy ; Harkness' Latin Grammar and Latin Prose Composition ; and Leighton's History of Rome.

2. In the Sophomore Class : Cicero de Amicitia et de Senectute ; Terence, and Horace, (Satires and Epistles.)

3. In the Junior Class: Tacitus, Juvenal, and Persius.

4. In the Senior Class: Quintilian.

Lectures are given to the higher classes on Roman Literature.

In the higher classes exercises in composition are continued by rendering into Latin English translations of passages from Latin authors.

Madvig's, Zumpt's, and Allen and Greenough's Latin Grammar, (in addition to Harkness',) Andrews' or Harper's Latin Lexicon, are recommended to students.

SCHOOL OF MODERN LANGUAGES.

PROFESSOR JANUS.

This School is divided into two Departments, the French and the German.

In the French Department there are three classes : the Freshman, the Sophomore, and the Junior.

A course of grammatical instruction, with oral and written exercises, is begun in the Freshman Class. Text-Books : Keetel's Collegiate Course.

In the Sophomore Class attention is given to higher grammatical analysis, to French Literature, and especially to Conversation.

In the Junior Class portions of Classical French authors are read in connection with the foregoing exercises.

Candidates for the degree of A. M. write original French Essays, during the fourth year of their course.

In the German Department there are three classes : the Freshman, the Sophomore, and the Junior.

Freshman Class : The study of the language is begun in this class.

Students are drilled in the grammatical principles of the language, in Reading and in Conversation.

Text-Book : Otto's Conversation Grammar.

Sophomore Class : The study of the Grammar is continued throughout the year in this class also.

Text-Books : The Grammar, and Goethe's Hermann und Dorothea.

Junior Class : Schiller's Jungfrau von Orleans, and Selections from Goethe.

Candidates for the degree of A. M. write original German essays during the fourth year of their course.

SCHOOL OF MATHEMATICS.

PROFESSOR GORE.

In this School are taught Pure Mathematics, Mechanics, and Astronomy.

There are four classes :

1. The Freshman, in which are taught Algebra and Plane and Solid Geometry, and Plane Trigonometry.
Text-Books : Newcomb's and Thompson's Algebra ; Loomis' and Wentworth's Geometry.
- Text-Books : Loomis' Trigonometry and Surveying, Wheeler's Trigonometry, and Olney's Analytical Geometry.
2. The Sophomore, in which are taught Plane and Spherical Trigonometry and their application to Surveying, (with the use of Instruments,) and Analytical Geometry.
3. The Junior, in which are taught Differential and Integral Calculus, and their applications.
Text-Books : Olney's or Todhunter's Caclulus.
4. The Senior, in which are taught Mechanics and Astronomy.
Text-Books : Todhunter's and Smith's Mechanics, and Newcomb's Astronomy.

SCHOOL OF NATURAL SCIENCE.

PROFESSOR FRISTOE.

This School is divided into three classes :

1. The Sophomore, in which are taught the various branches of Experimental Physics, viz : Hydrostatics, Hydrodynamics, Pneumatics, Acoustics, Heat, Light, and Electricity.
Text-Books : Avery's Natural Philosophy, and Silliman's Natural Philosophy.
2. The Junior, in which are taught Inorganic and Organic Chemistry, embracing the Principles of Chemical Philosophy, the laws of Chemical Combination, the preparation of Elementary and Compound bodies, the methods of Analysis, Inorganic and Organic. the detection of Poisons, and the methods of counteracting their effects.
Text-Books : Barker, Fowne and Attfield.
3. The Senior, in which are taught Natural History and Geology. The instruction under the former head comprises Botany, Zoology, and Physiology. In Geology, the Physical Characters of the Earth as it now exists are first studied, then its History and Changes, and lastly, the causes that have produced these Changes and their identity with existing causes.
Text-Books : Dana's Mineralogy and Geology.

In this School students who have passed through the class in Chemistry can pursue. at their option, Qualitative and Quantitative Analysis, for which an extra fee of \$50 will be charged, and also a small charge for materials.

THE SCHOOL OF PHILOSOPHY .

THE PRESIDENT.

The special studies of this school are pursued in two Classes, the Junior and the Senior. In the Junior Class the attention of students is directed to the study of Moral Philosophy. The text-book used is Calderwood's Hand Book of Moral Philosophy, accompanied with lectures on the history of theoretical ethics, from the days of the Grecian philosophers down to the present time. In this historical review special attention is called to the phases of English speculation under the head of Moral Philosophy, with a critical reference to the main points of controversy from age to age among the exponents of different schools.

In the Senior Class the study of Natural Theology and of Mental Philosophy is pursued under the direction of the President, who also during the current year will serve as acting Professor of Political Philosophy ; the latter embracing Political Economy, Constitutional Law of the United States, and the elements of International Law. The text-book used in the study of Natural Theology is Butler's Analogy of Religion and Nature, accompanied with lectures on the more modern aspects of the questions discussed under this head. The text-book used for the purpose of recitation on Mental Philosophy is Porter's Intellectual Science, accompanied with lectures on the history of speculative philosophy and of its leading schools in ancient times, during the Middle Ages, and since the Revival of Learning.

In the study of Political Economy the text-book used is that of Dr. Wayland, as recast by Chapin, with references to the treatises of Adam Smith, Malthus, Bastiat, Carey, Mill, Roscher and others. Cooley's Principles of Constitutional Law, and Gallaudet's Manual of International Law are used as text-books in the study of Political Philosophy,

A course of lectures is also delivered by the President to the Senior Class in this school on History, its sources, methods of study, elements of criticism, and its philosophy, with special critical references, under the last named head, to the systems of Vico, F. Schlegel, Herder, Fichte, Schelling, Hegel, Bunsen, Guizot, Balmes, Buckle, Draper, and Lecky.

CONSPECTUS OF STUDIES FOR THE DEGREE OF
MASTER OF ARTS.

FRESHMAN STUDIES, (FIRST YEAR.)

FIRST TERM.

- English*.—Fowler's English Language ; Composition ; Elocution.
Greek.—Homer's Iliad (Boise's edition;) Boise's Exercises in Greek Syntax; Goodwin's and Hadley's Greek Grammar; Smith's History of Greece.
Latin.—Ovid's Metamorphoses; Odes and Epodes of Horace; Harkness' Latin Prose Composition; Harkness' Latin Grammar.
Modern Languages.—French : Keetel's Collegiate Course. *Leçons de Literature Française Classique*. Oral and written Exercises.
 German : Otto's Conversation Grammar.
Mathematics.—Synthetic Geometry, (Loomis and Wentworth's;) Weekly Original Exercises.

SECOND TERM.

- English*.—Fowler's English Language continued.
Greek.—Herodotus, Hadley's Grammar and Boise's Exercises continued.
Latin.—Livy (Chase and Stuart's edition;) Latin Prose Composition and Grammar continued; Leighton's History of Rome. For reference: Ginn and Heath's Classical Atlas.
Modern Languages.—Studies of the First Term continued.
Mathematics.—Algebra completed, (Loomis' revised or Newcomb's Algebra ;) Original Problems.

SOPHOMORE STUDIES, (SECOND YEAR.)

FIRST TERM.

- English*.—Rhetoric, (Whately's;) Composition ; Elocution ; English History, (Student's Hume.)
Greek.—Xenophon's Memorabilia, (Winan's edition,) Exercises in Greek Composition continued.
Latin.—Cicero de Amicitia et de Senectute ; Terence ; Exercises in Latin composition continued.
Modern Languages.—French: Grammaire Française, (Noël et Chapsal;) Sadler's and Williams' Exercises.
 German: Otto's Conversation Grammar; Goethe's *Hermann und Dorothea*.
Mathematics.—Plane and Spherical Trigonometry, (Newcomb's;) Surveying and Navigation, (Schuyler's;) Original Exercises.
Natural Science.—Physics, (Avery and Silliman or Gage.)

SECOND TERM.

- English*.—Hill's Science of Rhetoric ; Composition ; Elocution ; History of the United States, (Eliot's.)

Greek.—Isocrates, or Thucydides ; Exercises in Greek Composition continued.

Latin.—Horace, Satires and Epistles; Exercises in Latin Composition continued.

Modern Languages.—French : Studies of the First Term continued.
German: “ “ “ “

Mathematics.—Analytical Geometry, (Olney's;) Original Problems.

Natural Science.—Physics, (Avery and Silliman, or Gage.)

JUNIOR STUDIES, (THIRD YEAR.)

FIRST TERM.

English.—Shaw's English Literature, (Smith's edition;) Jevon's Logic; Composition.

Greek.—Sophocles and Euripides ; Lectures on History of Greek Literature ; Exercises in Greek Composition.

Latin.—Tacitus ; Lectures on History of Latin Literature ; Exercises in Latin Composition.

Modern Languages.—French : Molière and Pascal.
German : Selections from Schiller and Goethe.

Mathematics.—Differential Calculus, (Olney's or Todhunter's, or Loomis';) Original Exercises.

Natural Science.—Inorganic Chemistry, (Barker's or Attfield's.)

Philosophy.—Moral Philosophy, (Calderwood's.)

SECOND TERM.

English.—Logic, (Thomson's Laws of Thought;) English Philology ; Composition ; Elocution.

Greek.—Demosthenes ; Lectures and Exercises continued.

Latin.—Juvenal, and Persius ; Lectures and Exercises continued.

Modern Languages.—French: Molière and Pascal; Lectures on French Literature.

German : Schiller and Goethe ; Lectures on German Literature.

Mathematics,—Integral Calculus, (Olney's, Todhunter's or Loomis';) Original Exercises.

Natural Science.—Organic Chemistry, (Fowne or Wheeler.)

Philosophy.—Calderwood's Moral Philosophy ; Lectures on History of Moral Philosophy.

SENIOR STUDIES, (FOURTH YEAR.)

FIRST TERM.

English.—Original Essays and Original Orations.

Greek.—Plato.

Modern Languages.—French : Original Essays.
German : Original Essays.

Mathematics.—Mechanics, (Smith or Todhunter.)

Natural Science.—Physiology, (Hutcheson or Huxley;) and Zoology.

Philosophy.—Natural Theology, (Paley and Butler;) Intellectual Philosophy (Porter's) begun ; Political Philosophy, (Cooley;) History; Lectures on Sources, Methods of Study, and principles of Criticism.

SECOND TERM.

English.—Original Essays and Original Orations.

Latin.—Quintilian.

Modern Languages.—French : Original Essays.

German : Original Essays.

Mathematics.—Astronomy, (Newcomb's.)

Natural Science.—Geology, (Dana's.)

Philosophy.—Intellectual Philosophy (Porter's) continued ; Lectures on History of Philosophy.

Political Philosophy : Wayland's Political Economy and Gallaudet's International Law.

History : Lectures on Philosophy of History.

ELECTIVE STUDIES.

English.—The study of the Anglo-Saxon is optional, being open to students of any class, and not being required for a degree.

The text-books used in this study are as follows : Shute's Manual of Anglo-Saxon ; March's Anglo-Saxon Grammar ; Heyne's Beowulf.

Natural Science.—Qualitative and Quantitative Analysis.

TIME AND TERMS OF ADMISSION.

The regular examinations for admission to the College are held on the Monday and Tuesday immediately preceding the opening of the session. Every applicant is required to deliver to the President testimonials of good moral character; and if he comes from another college he must present a certificate of honorable dismission.

Candidates for admission to any class of the College must, unless they are graduates of the Preparatory School, sustain an examination in the following elementary studies: Spelling, English Grammar, Geography, Elements of History, and Arithmetic.

Candidates for admission to any school will be examined in all the studies presupposed by the curriculum of that School.

Candidates for admission to the School of English will be admitted to its lowest class on passing a satisfactory examination in the preliminary studies above indicated.

Candidates for admission to the School of Greek in its lowest class, the Freshman, will be examined in Goodwin's or Hadley's Greek Grammar; Goodwin's Greek Reader, or Xenophon's Anabasis, (first four books;) first two books of Homer's Iliad; and Jones' Greek Prose Composition.

Candidates for admission to the School of Latin in its lowest class will be examined in Harkness' Latin Grammar; five books of Cæsar's Commentaries; six of Cicero's Select Orations; the Eclogues, and six books of the Æneid of Virgil; Sallust (Conspiracy of Catiline;) Harkness' Latin Prose Composition, (Parts I and II;) and Leighton's History of Rome, (250 pages.)

Candidates for admission to the school of Mathematics, in its lowest class, the Freshman, will be examined in Algebra, (to Quadratic Equations,) and in the first three books of Geometry.

Real Equivalents in quality and amount will be received in place of the books or parts of the books prescribed as above for study preparatory to admission into the Schools of Greek, Latin, and Mathematics.

Candidates for admission to any advanced class in any School will be examined in all the previous studies of the class which they propose to enter.

Students wishing to pursue a Select Course in any School or Schools will be admitted to the classes for which they may be found

qualified: but an examination in preliminary and indispensable studies will be held in all such cases, and every student pursuing such a course is required to embrace in his selections not less than twelve recitations or lectures per week. The choice of studies embraced in a Select Course must be made immediately upon the commencement of a term, and no student will have leave to make a new choice of studies during any single term.

CERTIFICATE AND DIPLOMAS.

The degrees of the College are conferred only on evidence of satisfactory attainments in the studies prescribed for any given degree. The eligibility of candidates for any degree is determined by the quality and the extent of their studies in the several Schools of the College.

I. Certificates of Proficiency are given to students who pass a satisfactory examination on the following studies of the several Schools: In the *First*, on English Literature, History, and Rhetoric; in the *Second*, on the Greek of the Freshman and Sophomore Classes; in the *Third*, on the Latin of the Freshman and Sophomore Classes; in the *Fourth*, on the French or the German language; in the *Fifth*, on the Mathematics of the Freshman and Sophomore Classes; in the *Sixth*, on the Chemistry of the Junior Class; in the *Seventh*, on Mental or Moral Philosophy.

II. Students who pass a satisfactory examination on all the obligatory studies embraced in any one of the Schools of the College will receive a diploma certifying the fact of their graduation in that School.

DEGREES.

I. The degree of Bachelor of Letters is conferred on students who obtain diplomas in the Schools of English, Greek, Latin, Modern Languages, and Philosophy, and who receive a certificate of proficiency in the School of Mathematics or of Natural Science.

II. The degree of Bachelor of Science is conferred on students who obtain diplomas in the Schools of English, Modern Languages, Mathematics, Natural Science, and Philosophy.

III. The degree of Bachelor of Arts is conferred on students who obtain diplomas in any six Schools, and who receive a certificate of proficiency in the residuary School of the entire course.

IV. The degree of Master of Arts is conferred on students who, after obtaining diplomas in all the Schools of the College, shall sustain a final and satisfactory examination in review of all the studies prescribed for this degree.

Certificates and diplomas in any School of the College are awarded only at the close of the College year in each School, and after an examination duly had according to the rules of the institution.

EXAMINATIONS.

At the end of each term an examination of all the classes in all the Schools is publicly held in all the studies of that term.

The results of each Term Examination are combined with those of the daily recitations and attendance of the student during the term, in order to ascertain his academic standing at the end of that term.

Each recitation and each examination are graded on a scale of merit from 0 to 100, and a failure to reach the final average grade of 75 in any study is regarded as a failure in that study.

At the close of each College year all the classes in all the Schools are publicly examined in review of all the studies of that year.

The results of the Annual Examinations are combined with those of the Term Examinations, in order to ascertain the student's academic standing at the end of each year.

At the close of the second year of the regular course, prescribed for all the degrees of the College, the Annual Examination of the Sophomore classes in the several Schools, besides embracing all the studies of that year, will include such studies of the Freshman year as the head of each school may direct. The results of this examination will determine the eligibility of candidates to receive a Certificate of Proficiency at the end of this year in the school of Greek, Latin, or Mathematics, as the condition of attaining in regular course to one or another of the degrees dependent on such proficiency.

At the close of the regular four years' course all candidates for the degree of Master of Arts will be publicly examined by way of review in all the studies of all the Schools prescribed for that degree.

A student who fails to pass a satisfactory examination in any

study at the end of a College year may present himself for re-examination in that study at the end of the following year, and in default of doing so shall forfeit promotion with his class in that department.

All examinations which occur at the end of a College year are conducted in writing. Examinations for the degree of Bachelor of Arts and Master of Arts are concluded four weeks anterior to the date of the Annual Commencement, that time may be given to Professors for the inspection of written examination papers, and to students for the preparation of parts to be performed on Commencement Day by the successful candidates for the degrees of Bachelor and Master of Arts, to whom public parts on that day may be assigned by the Faculty.

ANNUAL PRIZES.

Besides the honors and degrees conferred in the regular course, prizes are annually offered as the rewards of special excellence in particular branches of study.

The Davis Prizes, for excellence in Elocution, founded by the Hon. Isaac Davis, LL. D., of Massachusetts, consist of two gold medals, and are annually awarded to the two successful competitors, in a public contest held on Commencement Day. These prizes are awarded by a committee whom the Faculty selects for this purpose, and are publicly delivered at the close of the contest.

The Staughton Prize, for excellence in the Latin Language and Literature, and the Elton Prize, for excellence in the Greek Language and Literature, founded by the Rev. Romeo Elton, D. D., of Exeter, England, consists of two gold medals, annually awarded to the best scholar and writer in each of these languages.

The Ruggles Prizes, for excellence in Mathematics, founded by Prof. William Ruggles, LL. D., consist of two gold medals, annually awarded to the best two scholars in the pure and applied Mathematics.

The Prize for excellence in Metaphysics, the gift of the President of the Faculty, is a gold medal annually awarded to the best student in Mental Philosophy.

Any student entitled to a diploma in any school will be allowed to contend for the prize given in that department, provided he shall have pursued the required number of studies during the year and shall have passed satisfactory examinations in the same.

PRIZEMEN FOR THE YEAR 1881-'82.

In the collegiate year of 1881-'82, the following are the names of the students who were the successful contestants for the various prizes:

The Elton Prize in Greek was awarded to EDSON A. LOWE, of the District of Columbia.

The Staughton Prize in Latin was awarded to CHARLES H. BUTLER, of the District of Columbia.

The Welling Prize in Metaphysics was awarded to EDSON A. LOWE, of the District of Columbia.

The Ruggles Prize in Mathematics was awarded to EDSON A. LOWE, of the District of Columbia.

The prize in Anglo-Saxon, given by Professor Shute, was awarded to HOWARD L. HODGKINS, of the District of Columbia.

The First Davis Prize in Elocution was awarded to EDSON A. LOWE, of the District of Columbia.

The Second Davis Prize in Elocution was awarded to ORLANDO G. WALES, of the District of Columbia.

The Gold Medal for Excellence in Debate was awarded by the Eno-sian Society to H. S. T. HARRIS, of Virginia.

The Prize for Proficiency in Parliamentary Law, given by Professor Gore, was awarded to SAMUEL R. CHURCH, of the District of Columbia.

ORDERS OF THE COLLEGE YEAR.

TERMS AND VACATIONS.

The College year, embracing nine months, is divided into two terms. The first term begins on the second Wednesday in September, and continues to the first Monday in February. The second term begins on the first Monday in February, and ends on the day of the Annual Commencement, which is held on the second Wednesday in June.

A vacation of eight days is given at Christmas, beginning on that holiday, and lasting until the next day after New Year's.

The 22d of February is observed as a College holiday.

A recess is given from Good Friday to Easter Monday inclusive.

ANNUAL COMMENCEMENT.

The Annual Commencement of the College is held on the second Wednesday in June.

Public parts are assigned on Commencement Day to such stu-

dents only as have passed a satisfactory examination for the degrees of Bachelor or Master of Arts, except, as before indicated, in the case of those who may be contestants for the prize in Elocution.

A Latin Salutatory will be awarded to the graduate in each year whose average standing in all the Schools is the highest; and an English Salutatory to the student who stands second.

The Valedictory is awarded with special regard to the qualifications of the student as a Valedictorian, as well as on the ground of scholarship.

Philosophical, Classical, Scientific, Metaphysical, Ethical, Historical, or Literary Orations may be awarded to students who are eminent respectively in the corresponding Departments.

All the degrees of the College are publicly conferred on Commencement Day.

Diplomas in the several Schools, and prizes for special excellence in any Department, are publicly delivered on the same day.

PUBLIC WORSHIP.

Prayers, accompanied by the reading of the Scriptures, are offered daily in the College Chapel. All students are required to attend this service.

LIBRARY HOURS.

The College Library will be open for the distribution of books, as also for purposes of consultation and inquiry, on such days and under such regulations as the Faculty may direct at the beginning of each year.

The Libraries of Congress and of the various Departments of the Federal Government are also accessible to students for purposes of research in any special line of studies.

LITERARY SOCIETY.

The Enosian Society, a literary association, formed by the students of the College, meets weekly in its hall for the purpose of improvement in Debate and Composition.

LECTURES.

Courses of lectures in various departments of Science, Art, and Literature are open to the attendance of students, not only in the

College, but in connection with various Associations, national and local, devoted to general culture at the Capital of the country, and furnishing peculiar facilities for information and improvement in every branch of liberal learning.

As the endowments of the University shall be enlarged by the munificence of patrons and benefactors, it is proposed to render available, for purposes of higher education, the rich collections of the Smithsonian Institution and Agricultural Department in science and natural history, and those of the United States Patent Office in technology. It is also hoped that the scheme of instruction pursued in the University may ultimately enlist in its service the scientific learning now connected with the United States Coast Survey and the National Observatory, while the Corcoran Gallery of the Fine Arts cannot but serve as a valuable auxiliary to æsthetical culture.

GENERAL ORDERS.

Every student on entering the College is understood by that act to come under a pledge that he will obey the rules and regulations prescribed by the Board of Trustees and Overseers, and by the Faculty acting under the authority of the Board.

A pamphlet copy of the laws of the College will be furnished to every student on his admission.

A merit roll of conduct is kept, and demerits are given for unexcused absences and for violation of College laws. When any student has received one hundred such marks during any one term, or one hundred and fifty during any one year, he may be required to leave the institution.

A report of the student's standing in all his studies, including a record of all absence from lectures, recitations, or other public exercises of the College, will be rendered quarterly to parents or guardians.

The daily recitations of the College Class are brought, as far as practicable, into the early portion of the day, closing generally at 2:30 o'clock P. M., and on Saturday at 11 o'clock A. M. The advantages of an attendance upon the debates of Congress, and upon lectures before various associations, are thus offered to students of the higher classes without detriment to proficiency in their studies.

Any parent or guardian who desires a special privilege for his son or ward in this respect must, however, signify it in writing to the President.

COLLEGE EXPENSES.

1. Admission Fee, (paid but once, on entrance).....	\$10 00
2. Tuition for the year in three or more Schools.....	90 00
3. Tuition for the year in two Schools.....	70 00
4. Tuition for the year in one School.....	50 00

These charges cover all expenses, including public fuel, servants' wages, &c.

Bills are payable semi-annually, in advance.

The College provides no commons, but board may be procured in the city at such reasonable rates that the annual expenses of a student need not exceed the sum of three hundred dollars.

SCHOLARSHIPS.

The Kendall Scholarship, founded by the late Hon. Amos Kendall, and running for six years, two in the Preparatory School and four in the College, is annually conferred on the best scholar in the public High School. Students on this foundation pay semi-annually in advance a fee of eight dollars for public fuel, servants' wages, &c.

THE PREPARATORY SCHOOL.

CORPS OF INSTRUCTION.

PROF. OTIS T. MASON, A. M., PH. D., Principal, and Instructor in Greek, English, and Natural History.

PROF. ANDREW P. MONTAGUE, A. M., Instructor in Latin.

PROF. ANTHONY H. JANUS, Instructor in French.

PROF. J. HOWARD GORE, B. S., Instructor in Mathematics

MR. HOWARD L. HODGKINS, Assistant Instructor in Arithmetic.

This School is placed under the special charge of the Principal, who controls and directs its operations, with the aid of assistant instructors, and with the advice and co-operations of the College Faculty. Its full course of study extends through four years, and includes Reading, Writing, Spelling, Grammar, Rhetoric, Geography, History, Natural Science, Arithmetic, Algebra, Geometry, Bookkeeping, French, Latin, and Greek, and exercises in Composition and Declamation.

The Preparatory School is designed to afford a thorough preparation for the College. It furnishes also a High School Course, occupying two years, for pupils who have completed their studies in the common English branches, either in the Public Schools or elsewhere.

SCHEME OF STUDIES IN THE PREPARATORY SCHOOL.

FIRST YEAR: FOURTH CLASS.

FIRST AND SECOND TERM.

Reading.—The Franklin Sixth Reader.

Spelling.—Worcester's New Pronouncing.

Arithmetic.—Thompson's New Practical and Mental.

Geography.—Swinton's Complete Course.

History.—Anderson's Grammar School United States.

Grammar.—Fowler's Common School.

Latin.—Harkness' Introductory Course, Reader, and Grammar.

Declamation, Composition.

Penmanship, Map Drawing.

SECOND YEAR: THIRD CLASS.

FIRST AND SECOND TERM.

Reading.—Westlake's Common School Literature.
Grammar.—Fowler's Common School, (completed.)
Arithmetic.—Thompson's, (completed.)
History.—Anderson's England.
Latin.—Harkness' Reader, Grammar, Cæsar, and Prose Composition.
Greek.—Goodwin's Grammar, with White's First Lessons.
Botany.—Gray's Field and Class Book.
Bookkeeping.—Mayhew's Practical.
Declamation, Composition.
Penmanship, Spelling.

THIRD YEAR: SECOND CLASS.

FIRST AND SECOND TERM.

Reading.—Hamlet. Rolfe's or Hudson's.
Grammar.—Kellogg's Text-Book of Rhetoric.
Arithmetic.—Wentworth and Hill's.
History.—Anderson's General.
Bookkeeping.—Mayhew's Practical.
Latin.—Harkness' Cæsar, Grammar, and Prose Composition.
 In the Second Term: Harkness' Cicero.
Greek.—Crosby's Anabasis, and Goodwin's Grammar.
Algebra.—Newcomb's.
Physics.—Hotze's First Lessons.
Penmanship, Spelling.
Declamation, Composition.

FOURTH YEAR: FIRST CLASS.

FIRST AND SECOND TERM.

Reading.—Public Readings from Standard Authors.
Rhetoric.—Hill's Elements.
History.—Leighton's Rome, and Smith's Greece.
Latin.—Virgil's Æneid, with Harkness' Grammar and Prose Composition.
 In the second term: Sallust.
Greek.—Boise's Homer's Iliad, and Goodwin's Grammar, with Jones' Greek Prose Composition.
French.—Keetel's Collegiate Course.
 In the Second Term: Böcher's Otto's French Reader.
Algebra.—Newcomb's.
Geometry.—Newcomb's.
Natural History.—Orton's Comparative Zoology.
Chemistry.
Penmanship, Spelling.
Declamation, Composition.
Books of Reference in all the Classes: Worcester's and Webster's Dictionary, Baird's Classical Manual, Bigelow's Handbook of Punctuation, Ginn and Heath's Classical Atlas.

TERMS AND VACATIONS.

The Scholastic Year begins on the second Wednesday in September, and ends on the Tuesday before the third Wednesday in June. The year is divided into two terms. The first term ends on the Friday preceding the first Monday in February. The second term begins on the first Monday in February.

There is a vacation of eight days at Christmas, beginning on that holiday and lasting till the next day after New Year's. The 22d of February is observed as a holiday. A recess is given from Good Friday to Easter Monday, inclusive.

The School hours are from 9 o'clock A. M. to 2.30 P. M., with an intermission of half an hour at 12 o'clock M.

DISCIPLINE.

The School professes to be conducted on Christian principles both in its discipline and in its instructions; but no instruction is given and no influence exerted in favor of any peculiar denominational tenets.

In addition to daily recitations, an examination is held at the end of each term on all the studies of that term.

The graded scale of merit used in the school ranges from 0 to 10, and each student must reach the grade of 7 in order to be advanced with his class.

The progress of the scholar is stimulated by daily records, by monthly and term reports to parents, by promotions in his class, and by prizes.

EXPENSES.

For the Scholastic Year, including all expenses,\$80.00

All bills must be paid in advance, at the beginning of each term, to the Treasurer of the Corporation, Mr. R. C. Fox, A. M., at his office in the Corcoran Building, corner of Fifteenth street and Pennsylvania Avenue, or to Professor Samuel M. Shute, the financial agent of the School.

HONOR LIST OF THE PREPARATORY SCHOOL.

SESSION 1881-'82.

The School professes to be conducted on Christian principles both in its discipline and in its instructions; but no instruction is given and no influence exerted in favor of any peculiar denominational tenets.

In addition to daily recitations, an examination is held at the end of each term on all the studies of that term.

The graded scale of merit used in the school ranges from 0 to 10, and each student must reach the grade of 7 in order to be advanced with his class.

The progress of the scholar is stimulated by daily records, by monthly and term reports to parents, by promotions in his class, and by prizes.

EXPENSES.

For the Scholastic Year, including all expenses, \$80.00

All bills must be paid in advance, at the beginning of each term, to the Treasurer of the Corporation, Mr. R. C. Fox, A. M., at his office in the Corcoran Building, corner of Fifteenth street and Pennsylvania Avenue, or to Professor Samuel M. Shute, the financial agent of the School.

HONOR LIST OF THE PREPARATORY SCHOOL.

SESSION 1881-'82.

CERTIFICATES AND PRIZES.

For High Grade of Scholarship.

First Class.—First Prize, Samuel Hall.

Second Prizes, Robert P. Bigelow, Percy B. Hills,
Gustavus T. Riley.

Second Class.—First Prize, J. Bradley Tanner.

Second Prize, William F. Shute.

Third Class.—First Prize, William H. Wilson.

Second Prize, Ernest G. Thompson.

Fourth Class.—First prize, Delano Ames.

• *The Montague Gold Medal in Latin.*

Samuel Hall.

The Janus Gold Medal in French.

Fred. H. Cleaves.

The Davis Prizes in Greek and Penmanship.

Greek.—Samuel Hall.

Penmanship.—Robert P. Bigelow, Charles Bogan, Fred. H. Cleaves.

Gold Medals in Declamation.

First Prize.—William S. Roose.

Second Prize.—Fred. H. Cleaves.

Hermesian Society Gold Medals.

Best Debater.—Robert P. Bigelow.

Best Editor.—Harry W. Smith.

Medals for Punctuality and Deportment.

Gold Medals.—Robert P. Bigelow, Samuel Hall, Percy B. Hills, William Marbury, A. S. Mattingly, Harry W. Smith.

THE
COLUMBIAN COLLEGE
PREPARATORY SCHOOL,
OF
WASHINGTON, D. C..
1882-'83.

WASHINGTON, D. C.:
RUFUS H. DARBY, PRINTER, 432 NINTH STREET,
1883.

THE PREPARATORY SCHOOL.

CORPS OF INSTRUCTION.

PROF. OTIS T. MASON, A. M., PH. D., Principal, and Instructor in Greek, English, and Natural History.

PROF. ANDREW P. MONTAGUE, A. M., Instructor in Latin.

PROF. ANTHONY H. JANUS, Instructor in French.

PROF. J. HOWARD GORE, B. S., Instructor in Mathematics.

MR. HOWARD L. HODGKINS, Assistant Instructor in Arithmetic.

This School is placed under the special charge of the Principal, who controls and directs its operations, with the aid of assistant instructors, and with the advice and co-operation of the College Faculty. Its full course of study extends through four years, and includes Reading, Writing, Spelling, Grammar, Rhetoric, Geography, History, Natural Science, Arithmetic, Algebra, Geometry, Bookkeeping, French, Latin, and Greek, and exercises in Composition and Declamation.

The Preparatory School is designed to afford a thorough preparation for the College. It furnishes also a High School Course, occupying two years, for pupils who have completed their studies in the common English branches, either in the Public Schools or elsewhere.

SCHEME OF STUDIES IN THE PREPARATORY SCHOOL.

FIRST YEAR: FOURTH CLASS.

FIRST AND SECOND TERM.

Reading.—The Franklin Sixth Reader.

Spelling.—Worcester's New Pronouncing.

Arithmetic.—Thompson's New Practical and Mental.

Geography.—Swinton's Complete Course.

History.—Anderson's Grammar School United States.

Grammar.—Fowler's Common School.

Latin.—Harkness' Introductory Course, Reader, and Grammar.

Declamation, Composition.

Penmanship, Map Drawing.

SECOND YEAR: THIRD CLASS.

FIRST AND SECOND TERM.

Reading.—Westlake's Common School Literature.
Grammar.—Fowler's Common School, (completed.)
Arithmetic.—Thompson's, (completed.)
History.—Anderson's England.
Latin.—Harkness' Reader, Grammar, Cæsar, and Prose Composition.
Greek.—Goodwin's Grammar, with White's First Lessons.
Botany.—Gray's Field and Class Book.
Bookkeeping.—Mayhew's Practical.
Declamation, Composition.
Penmanship, Spelling.

THIRD YEAR: SECOND CLASS.

FIRST AND SECOND TERM.

Reading.—Hamlet. Rolfe's or Hudson's.
Grammar.—Kellogg's Text-Book of Rhetoric.
Arithmetic.—Wentworth and Hill's.
History.—Anderson's General.
Bookkeeping.—Mayhew's Practical.
Latin.—Harkness' Cæsar, Grammar, and Prose Composition.
 In the Second Term: Harkness' Cicero.
Greek.—Crosby's Anabasis, and Goodwin's Grammar.
Algebra.—Newcomb's.
Physics.—Hotze's First Lessons.
Penmanship, Spelling.
Declamation, Composition.

FOURTH YEAR: FIRST CLASS.

FIRST AND SECOND TERM.

Reading.—Public Readings from Standard Authors.
Rhetoric.—Hill's Elements.
History.—Leighton's Rome, and Smith's Greece.
Latin.—Virgil's Æneid, with Harkness' Grammar and Prose Composition.
 In the second term: Sallust.
Greek.—Boise's Homer's Iliad, and Goodwin's Grammar, with Jones' Greek Prose Composition.
French.—Keetel's Collegiate Course.
 In the Second Term: Böcher's Otto's French Reader.
Algebra.—Newcomb's.
Geometry.—Newcomb's.
Natural History.—Orton's Comparative Zoology.
Chemistry.
Penmanship, Spelling.
Declamation, Composition.
Books of Reference in all the Classes: Worcester's and Webster's Dictionary, Baird's Classical Manual, Bigelow's Handbook of Punctuation, Ginn and Heath's Classical Atlas.

TERMS AND VACATIONS.

The Scholastic Year begins on the second Wednesday in September, and ends on the Tuesday before the third Wednesday in June. The year is divided into two terms. The first term ends on the Friday preceding the first Monday in February. The second term begins on the first Monday in February.

There is a vacation of eight days at Christmas, beginning on that holiday and lasting till the next day after New Year's. The 22d of February is observed as a holiday. A recess is given from Good Friday to Easter Monday, inclusive.

The School hours are from 9 o'clock A. M. to 2.30 P. M., with an intermission of half an hour at 12 o'clock M.

DISCIPLINE.

The School professes to be conducted on Christian principles both in its discipline and in its instructions; but no instruction is given and no influence exerted in favor of any peculiar denominational tenets.

In addition to daily recitations, an examination is held at the end of each term on all the studies of that term.

The graded scale of merit used in the school ranges from 0 to 10, and each student must reach the grade of 7 in order to be advanced with his class.

The progress of the scholar is stimulated by daily records, by monthly and term reports to parents, by promotions in his class, and by prizes.

EXPENSES.

For the Scholastic Year, including all expenses, \$80.00

All bills must be paid in advance, at the beginning of each term, to the Treasurer of the Corporation, Mr. R. C. Fox, A. M., at his office in the Corcoran Building, corner of Fifteenth street and Pennsylvania Avenue, or to Professor Samuel M. Shute, the financial agent of the School.

HONOR LIST OF THE PREPARATORY SCHOOL.

SESSION 1881-'82.

CERTIFICATES AND PRIZES.

For High Grade of Scholarship.

First Class.—First Prize, Samuel Hall.

Second Prizes, Robert P. Bigelow, Percy B. Hills,
Gustavus T. Riley.

Second Class.—First Prize, J. Bradley Tanner.

Second Prize, William F. Shute.

Third Class.—First Prize, William H. Wilson.

Second Prize, Ernest G. Thompson.

Fourth Class.—First prize, Delano Ames.

The Montague Gold Medal in Latin.

Samuel Hall.

The Janus Gold Medal in French.

Fred. H. Cleaves.

The Davis Prizes in Greek and Penmanship.

Greek.—Samuel Hall.

Penmanship.—Robert P. Bigelow, Charles Bogan, Fred. H. Cleaves.

Gold Medals in Declamation.

First Prize.—William S. Roose.

Second Prize.—Fred. H. Cleaves.

Hermesian Society Gold Medals.

Best Debater.—Robert P. Bigelow.

Best Editor.—Harry W. Smith.

Medals for Punctuality and Deportment.

Gold Medals.—Robert P. Bigelow, Samuel Hall, Percy B. Hills, William Marbury, A. S. Mattingly, Harry W. Smith.

Silver Medals.—John Chester, Fred. H. Cleaves, William F. Shute.

Certificates of Graduation.

To the Freshman Class.—Samuel Hall, Henry B. Hedrick, Gustavus T. Riley.

To Special Schools.—William C. Alvord, Robert P. Bigelow, Fred. L. Burnett, Fred. H. Cleaves, M. Blair Domer, R. S. Donaldson, Mountjoy B. Hanson, Percy B. Hills, Martin W. Lichty, Walter H. Marlow, Harry W. Smith, Samuel L. Willett.

Honorable Mention for an Average above 90.

Gustav Ayres, Wilmot A. Carrington, Fred. H. Cleaves, Henry B. Hedrick, Martin W. Lichty, William Marbury, Frank D. Merchant, Harry W. Smith.

REPORT OF AUDITING COMMITTEE.

To the Corporation of the Columbian University.

GENTLEMEN: The Auditing Committee have examined the bonds, notes, &c., exhibiting the investments of the moneys pertaining to the various endowment funds and the miscellaneous securities of the Corporation now in the hands of the Treasurer, and find the foregoing schedules to be correct, and that the bonds, &c., are now safely kept in the vaults of the National Safe Deposit Company.

We have also carefully examined the foregoing statements of receipts and expenditures during the year ending May 31, 1883, and balances, and find the same to be correct, and to agree with the vouchers.

HENRY BEARD.

JOHN T. GIVEN.

J. ORMOND WILSON.

WASHINGTON, June 8, 1883.
